

# Airx 80

## Sanitizing/Deodorizing Carpet Cleaner

## Commercial and Residential Carpet Cleaning

**Airx 80** was developed specifically for carpets unlike most products that are designed for hard floors and used on carpeting allowing for ease of re-soiling.

**Airx 80** is EPA registered. Reg. No. 1459-74-44089

**Airx 80** removes grease and oil without added solvents.

**Airx 80** contains **Airicide Odor Counteractant**  
®

## Commercial Cleaning

Carpet is located in large room. We will use **Airx 80 Sanitizing/Deodorizing Carpet Cleaner**.

**Step 1: Vacuum carpet.**

**Step 2: Fill empty labeled **Airx 80** quart spray bottle 3/4 with cold water.**

**Step 3: Add 4 oz. **Airx 80** from gallon bottle to empty labeled **Airx 80** quart spray bottle.**

**Bottle filled 3/4 with water and 4 oz. **Airx 80**.**

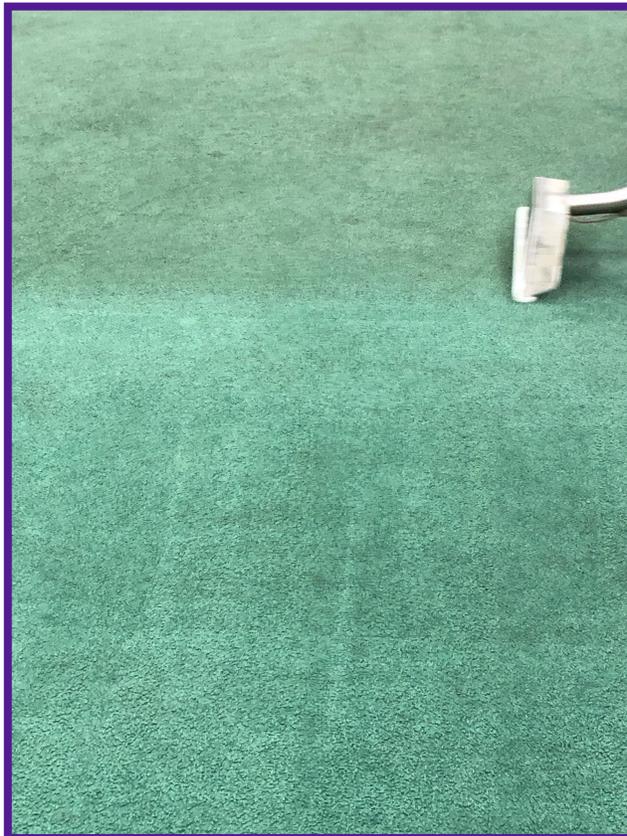

**Step 4: Pre-spray spots with **Airx 80** spray head set to a stream.**

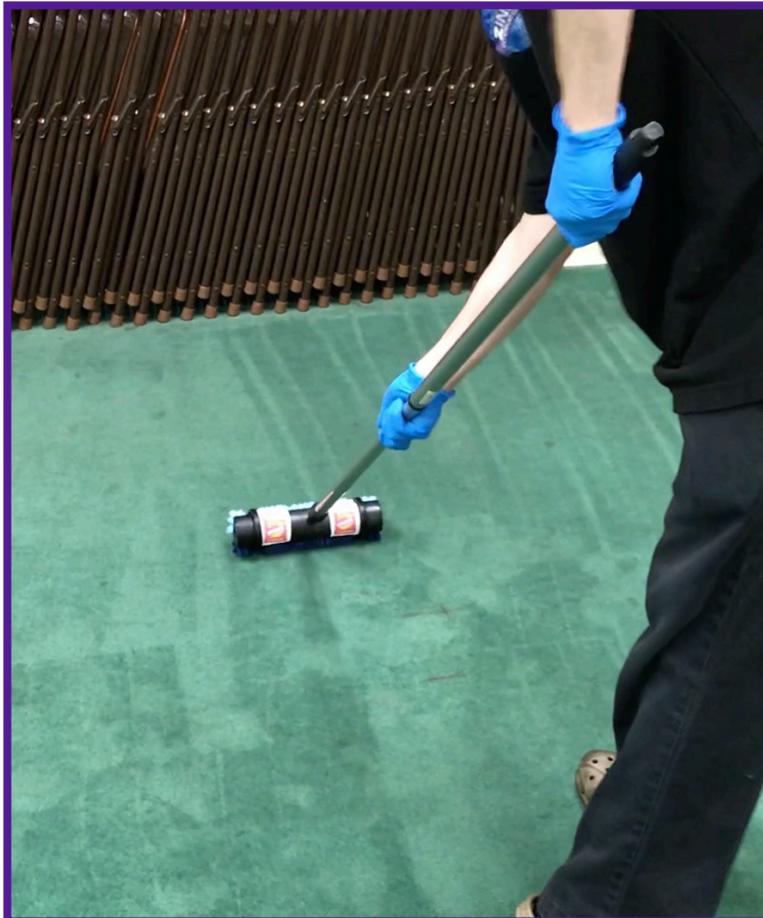

**Step 5: Add 2 oz. per gallon **Airx 80** from gallon container to extractor. We filled a bucket with water, then added **Airx 80** and poured contents into tank of extractor.**

**Step 6: Apply [Airx 80](#) to carpet. Using the extraction method we only made one pass for each row of dirty carpet.**

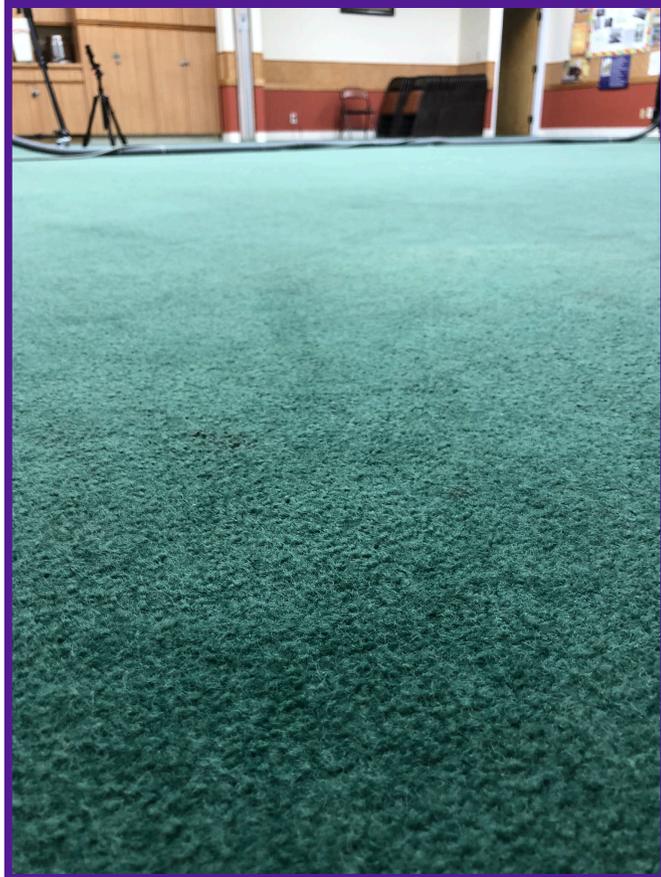

**Step 7: Brush carpet with **Jet Clean Brush on Wheels** to lift the nap which will also aid in drying the carpet.**

**Jet Clean  
Brush  
On Wheels**

## Optional Step

**Airx Spray-N-Go**

**Pump Up Sprayer**

**Step 8: Spray **Airx Spray-N-Go** directly on carpet without diluting utilizing a pump up sprayer.**

**Once carpet is cleaned you can start applying **Airx Spray-N-Go** regularly to continue killing bacteria and virus's including **Covid-19**.**
