

All About: Zing Floor Prep

GREEN Certified

Floor Prep is to be used any time you need to restore your floors. It penetrates the floor finish, which will suspend, encapsulate and strip away surface and ground-in dirt, without removing the present floor finish. **Floor Prep** contains **CPC (Cleaning and Polishing Compound)**. *Helps eliminate the need for stripping.*

Directions

Step 1 - Vacuum or Dust Mop to remove "Loose Dirt" and dust.

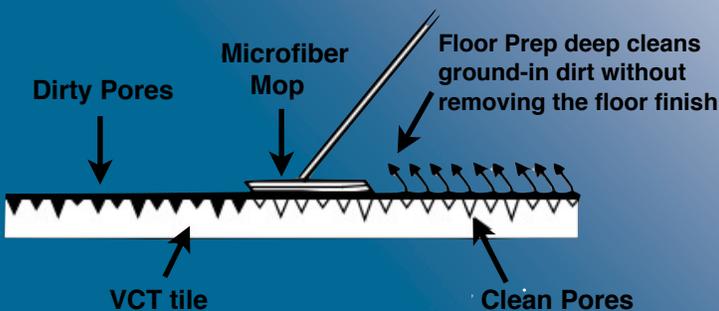

Step 2 - Mop or scrub as needed with **Floor Prep** diluted at 8 oz. per gallon cold water. If using scrubber, for best results wash floor with a hair pad or **Blue Blend Burnish Pad by Amerigo** and double scrub floor. Allow **Floor Prep** to sit 2-3 minutes before agitating.

Step 3 - **CPC** burnish, as scheduled. (Follow label directions) Use Medium Grade Hair Pad or **Blue Blend Burnish Pad by Amerigo**.

Step 4 - Vacuum or dust mop to remove the dry, dirt crystals created when burnishing.

Benefits

CPC Fortified

Self Removing

GREEN Certified

Will not remove the floor finish

Prevents continuous stripping

Works with all speed machines

Removes "Ground-In Dirt" from the floor finish without removing the floor finish

Hardens the existing floor finish to resist future soil penetration.

Treats all floors with **TLC (Tender, Loving Care)**
