

Zing at Central House - 2020

Central House with about 2,500 sq. ft. A facility that holds group meetings 7 days per week. Due to Covid outbreak facility was closed April and May with meetings resuming in June. When the meetings started again there was a 30 person limit for 3 meeting per day. Starting in September meetings were increased to 6 per day with a 30 person limit per meeting. This calculates to 180 people per day, 7 days = 1260 people per week.

One person, Mark, maintains the building - Dust mopping 7 days per week (Using **Zing Dust Control**), damp mopping 3 times per week (using **ZING KLEEN-UP** 1 oz. per gallon cold water) and burnishing 1 time per week with **Zing KLEEN-UP**.

There is a '**Crown Mat**' located outside the building and a large '**New Pig Mat**' inside the building. Mark vacuums the outside and inside mats and treats the inside mat with **Zing Dust Control** 6 days per week, cleaning the inside mat 1 time per week with **Zing Entrance Carpet & Mat Cleaner**.

All chairs have 'Feet Protectors' to help prevent the chairs from scratching the finish.

May 10th, 2020

Mark stripped the floor to bare tile and applied 4 coats **Zing First Impression Coating**. The next day Mark applied 3 more coats **First Impression Coating** from a gallon that he diluted 50/50 with water.

May 11th, 2020

Floor completely stripped and 4 coats of **Zing First Impressions Coating** was applied on May 10th and 3 coats of **Zing First Impression Coating** diluted 50/50 with water was applied on May 11th. Meetings won't begin until June.

September 17th, 2020

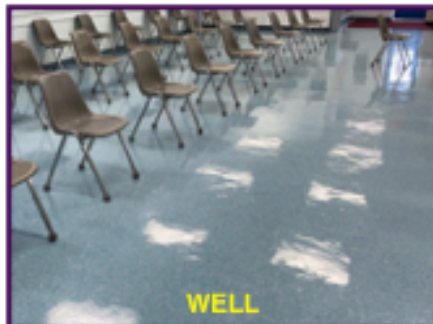

It's been 4 months since floor was stripped and coated with **Zing Fist Impression Coating**. It's been 3 months since the meetings started up again and are now running 6 meetings per day with a limit of 30 people per meeting.

September 17th, 2020

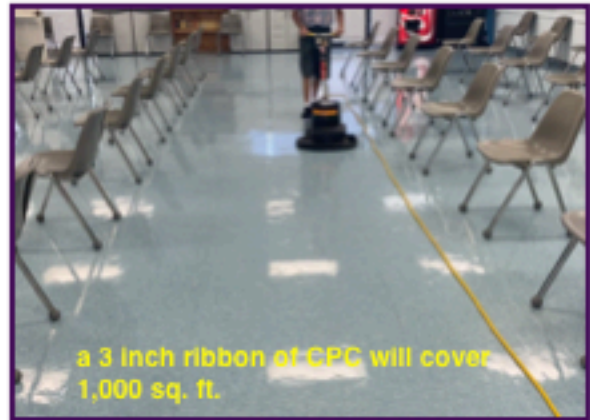

The day we stopped in, Mark was cleaning the 'New Pig' Entrance Mat and treating with **Zing Dust Control** (See Photos Above)

This was a burnish day for Mark. When he came to an area that showed some scuffing he sprayed **Zing KLEEN-UP** on the area and worked the high speed burnisher back & forth over the area removing the scuffs. He then continued burnishing.

November 18th, 2020

Mark decided that he would like to use the **Zing CPC (Cleaning and Polishing Compound)** to burnish his floors. Floors are holding up heat!

December 17th, 2020

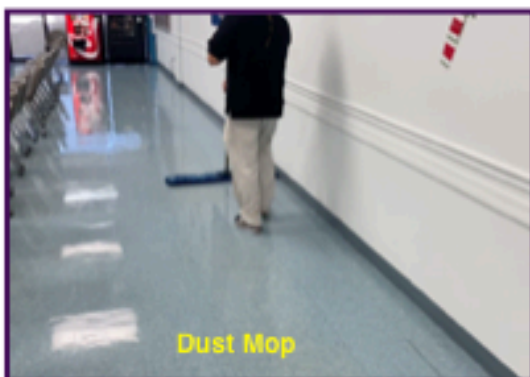

During the inspection of the floor I noticed some wear starting to show in the back aisle in front of the chairs. This is a area that is busy. Constant scuffing of feet is starting to show wear in the finish.

First I apply **Zing Dust Control** to dust mop. Fill empty quart bottle labeled **Zing KLEEN-UP** 3/4 with cold water. Add 4 oz. **KLEEN-UP** to bottle.

Dust mop to remove loose dust and dirt. Apply **KLEEN-UP** to floor and allow to sit 2-3 minutes.

Dust mop to remove loose dust and dirt. Apply **KLEEN-UP** to floor and allow to sit 2-3 minutes. Clean area with high speed burnisher and **Americo Blue Blend Burnisher**.

Run high speed burnisher over floor.

Dust mop to remove loose dust and dirt. Apply **KLEEN-UP** to floor and allow to sit 2-3 minutes. Clean area with high speed burnisher and **Americo Blue Blend Burnisher**.

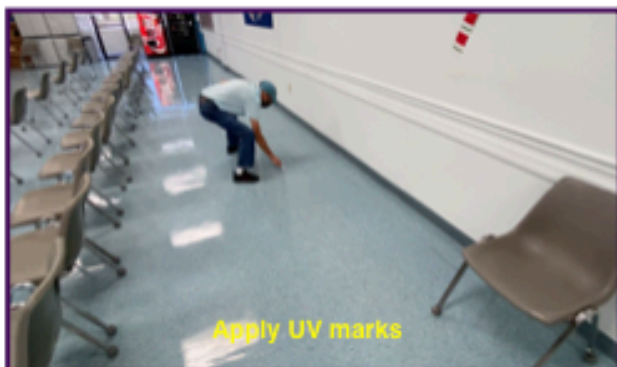

Dust Mop again

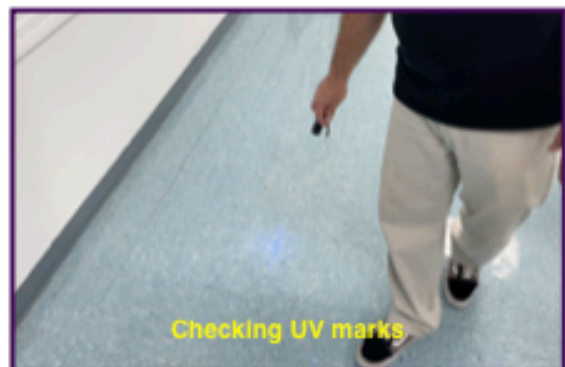

Dirty pad ready to be cleaned

Mark applies UV Marks so that we can monitor the finish wear in the back aisle. I am using UV light to check marks.

Apply UV marks

Checking UV marks

Mark pours **Zing First Impression Coating** on floor and applies to area we spray cleaned with **Zing KLEEN-UP**.

Pouring Zing First Impression Coating

Applying Zing First Impression Coating

Area spray cleaned, marked with UV marker and 1 coat of **Zing First Impression Coating** applied. Now Mark will continue cleaning the floor with **Zing KLEEN-UP** diluted 1 oz. per gallon cold water in a mop bucket.

Area blends in with rest of the floor
